LEGAL Specialties Trial Law. Those in need of a highly experienced trial law firm have always been able to turn to Howe & Associates to handle even the most complex legal matters. With an accomplished team of litigation attorneys, the firm is recognized as an industry leader for its ability and results in the courtroom. Maximum recoveries, along with distinguished customer service are the principles on which the firm was founded.

BREAKOUT CASE A recent recovery in the amount of \$753,000. The most common advice I give my clients is to practice patience. Many complex cases end up in court - and that's not always a bad thing because that's where the client stands to gain the most. It is typical in most negotiations that the opposing party will proffer low offers up until trial - hoping for a compromise. However, we make it a practice to never concede. With our expertise and track record of success in front of a jury, we welcome the opportunity to maximize each case with a favorable verdict.
